Product Description

3 Spanish Candy Tray TE

The K116 – 3 Spanish Candy Tray TE is a metal serving tray designed to display sweets on an open surface rather than store them inside a closed box. Kontensan offers this model in the Food Tin & Metal Packaging main category, under Candy Gift Tin Boxes. Its low sides help arrange selected sweets and small treats neatly. Unlike a lidded candy tin, this product is an open-top tray without a lid.

Metal Candy Tray Dimensions and Construction

The TE mold measures 238 mm in diameter, 358 mm in length and 20 mm in height. The K116 product row specifies a metal thickness of 0.32 mm; the mold sheet also lists 0.28 mm and 0.30 mm options. The tray has no lid, handle, hinge, hole or seamed joint. The general technical sheet states a volume of 0.25 liters, while the K116 product row leaves the volume blank. Therefore, the 3-liter wording in the product name should not be treated as a confirmed capacity.

Gold Lacquer and Printed Metal Candy Presentation

The K116 version has gold lacquer on both its inner and outer surfaces. The technical sheet also lists silver, clear, pigment and other coatings, plus offset printing as an external option. Businesses seeking custom-printed confectionery packaging or a branded metal serving tray should confirm that their design can be produced before ordering. The suitability of any surface touching food must also be checked for the sweets being served.

Who Should Consider Wholesale Metal Candy Trays?

The open-tray design may suit tasting counters, confectionery displays and gift presentations. For wholesale metal confectionery packaging orders, buyers should plan quantities, finishes, artwork and sample approval together. Customers looking for a decorative candy tin should clearly understand that this model is not a closed container. Its capacity information must also be clarified before production.

Frequently Asked Questions - FAQ

What are the dimensions of the Spanish candy tray?

The TE mold measures 238 mm in diameter, 358 mm in length and 20 mm in height. K116 uses 0.32 mm metal.

Does this metal candy tray have a lid?

No. K116 is an open-top serving tray without a lid, handle or hinge.

Is the Spanish candy tray confirmed to hold 3 liters?

No confirmed 3-liter capacity is given. The general sheet states 0.25 liters, while the K116 row has no volume value. The manufacturer must confirm the capacity.
