Product Description

**4 Liter Candy Gift Tin Box**

The 4 liter candy gift tin box FD is a decorative metal package designed for confectionery, dragee, Turkish delight, chocolate, and similar products that need protection and gift-ready presentation. The FD technical sheet lists a 265 mm diameter, 36 mm main technical height, and an applicable capacity range of 2–11 liters. A slip lid, lock-seamed body, and decorative bead give the package a classic but strong character. Manufactured by Kontensan, this candy tin is suitable for decorative confectionery packaging, printed candy tins, gift tins, round metal candy boxes, and branded metal packaging. The phrase tin can may be used as a common search term, but this product is presented here as a candy gift tin box.

**Key Features of the 4 Liter Candy Gift Tin Box**

Ø265 mm Diameter and 2–11 L Capacity Range

This product is part of Kontensan's Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes subcategory. The Ø265 mm diameter and 36 mm main technical height create a wide package format with strong branding potential. The 2–11 L applicable capacity range supports different filling plans within the same mold family.

**Slip Lid, Lock-Seamed Body and Decorative Bead**

The technical sheet lists a slip lid, lock-seamed body, and decorative bead. No opening, handle, or hinge is listed. The decorative bead strengthens the appearance of a round metal candy tin and supports gift-oriented and custom-printed confectionery packaging.

**Decorative Coating and Offset Printing Options**

Inner coating options include silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, cream enamel, beige, clear lacquer, cream lacquer, decorative gold lacquer, and grey lacquer. Outer options include silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, and decorative gold lacquer. These options support branded candy tins, printed confectionery tins, wholesale gift tins, and custom packaging.

**Source Note**

The FD main technical row lists a 36 mm height and a decorative bead, while alternative L509 lists a 70 mm actual product height and no form / bead. These values are preserved separately.

**Frequently Asked Questions - FAQ**

What is the capacity range of the 4 liter candy gift tin box?

The FD technical sheet lists an applicable capacity range of 2–11 liters.

Does the box have a decorative bead?

The main technical row lists a decorative bead, while alternative L509 lists no form / bead.

Which lid is used?

The source lists a slip lid.

Can the box be custom printed?

Yes. Offset printing is listed among the outer coating options, supporting custom-printed candy tin projects.
