Product Description

4 L Cookies and Baklava Tin Box

The 4 Liter Cookies and Baklava Tin Box is a metal box designed for baklava, cookies and syrup-based desserts with its wide, flat square form. With a 232 × 232 mm cornered base and 41 mm height, it suits fill volumes ranging from 2.2 to 6 liters. This product belongs to the Cookies, Baklava, and Syrup-Based Dessert Tin Boxes series under Kontensan's Food Tin & Metal Packaging main category.

Wide Flat Tin Box for Baklava

Baklava needs its slices laid flat and side by side. Thanks to its wide flat form, this baklava tin carries and presents the slices tidily without crushing them. The slip-on lid gives easy opening and closing, while the clinch-seam body supports leak resistance for syrup-based contents. It is also suitable for dry desserts such as cookies.

Uses

The cookies and baklava tin box suits dessert makers, patisseries and gift producers. In festive and special-day presentations, its wide top surface gives a strong visual area for the brand.

Printing and Coating Options

A printed baklava tin can be produced with internal and external coatings such as silver lacquer, gold lacquer, enamel and pigment lacquer. Metal offset printing allows festive and custom-brand designs to be applied to the wide lid surface.

Leak Resistance and Food Safety

The clinch-seam body and food-grade lacquer systems support leak resistance and hygiene for syrup-based contents throughout the shelf life.

Kontensan Production Assurance

Kontensan supports production reliability with its quality, environmental and food safety management system certifications. With 46 years of manufacturing experience, it supplies metal dessert boxes from Türkiye to more than 30 countries. Production in different sizes and depths is also possible.

Frequently Asked Questions - FAQ

Why is baklava stored in a wide, flat tin box?

Baklava slices are not crushed when laid flat and side by side. The wide flat form allows the slices to be carried tidily and presented elegantly.

How much dessert fits in a 4 liter baklava box?

The mould offers filling from 2.2 to 6 liters. The amount varies with the type of baklava, cookies or syrup-based dessert and how it is arranged.

Will syrup-based desserts leak?

The clinch-seam body and food-grade internal coating support leak resistance for syrup-based contents and help carry the content safely.

Can custom festive printing be applied?

Yes. With metal offset printing, festive, gift and custom-brand designs can be applied to the wide surface.
