6 Liter Paint & Thinner Tin Can Pail PD

PD

Technical Specifications

Mold Code	PD
Diameter	179
Height	38
Volume	0.9 - 7.2 lt

Applicable Features

Kalınlık

0,24 mm · 0,25 mm

İç Kaplama

Silverlaklı · Puntalık Laklı · Çift Laklı · Pigment Laklı · Pigment Lak+Laklı · Çift Pigment Laklı · Krem Emaye Laklı · Bej Laklı · Şeffaf Laklı · Dekoratif Gold Laklı · Gri Laklı · Gold Laklı · Krem Laklı · Yok

Dış Kaplama

Silverlaklı · Gold Laklı · Çift Laklı · Şeffaf Laklı · Dekoratif Gold Laklı · Emaye · Ofset Baskılı · Yok

Delik

Yok

Kapak

Kova Kapağı (Formasız)

Kulp

Yok

Kulp/Tapa Rengi

Yok

Dikiş Kaplama

İçi Dışı Laklı · İçi Toz Laklı Dışı Laksız · İçi Laklı Dışı Laksız · İçi Toz Laklı Dışı Laklı · İçi Laksız Dışı Laklı · Yok

Forma / Kordon

Yok

Product Description

6 Liter Paint & Thinner Tin Can Pail PD

6 Liter Paint & Thinner Tin Can Pail PD belongs to a wide-opening, handle-free metal pail family for medium-volume packaging requirements in the paint and thinner industry. Kontensan offers this product in its Paint & Thinner Tin Can range under Industrial and Chemical Tin Cans, Pails, and Drums. The six-liter capacity allows professional paint manufacturers to consider different packaging volumes. The PD family is specified with an unprofiled pail lid and a welded body. The documented finished product example in the technical datasheet is the two-liter K066 paint container.

6-Liter Paint Pail: Body Design and Sheet Thickness

The PD mold family has a reference diameter of 179 mm, a reference height of 38 mm and a capacity range of 0.9–7.2 liters. Sheet metal thicknesses of 0.24 mm and 0.25 mm are available for the welded body. No separate body shaping or ribbing is specified. The K066 model has a finished height of 85 mm, a capacity of two liters and 0.24 mm sheet metal. These are not confirmed finished dimensions of the six-liter version. When sourcing empty paint pails, consider container dimensions, filling equipment clearance and pallet arrangements together. For handle-free packaging in particular, the handling method after filling and the total product weight should be considered during purchasing.

Handle-Free Metal Paint Pails and Coating Options

The PD family has an unprofiled pail lid, with no separate filling opening or handle. The K066 model has an enamel exterior. It has no inner coating or separate seam coating. Within the mold family, different inner coating options such as silver, gold, pigment and clear lacquers, as well as enamel, lacquered and offset printed exterior finishes, can be considered. When selecting metal paint tins with lids, compatibility between the inner surface and the contents and closure performance are important. A model specified for paint should not be assumed to suit every type of thinner. Required packaging tests and approvals for dangerous goods transport must be verified separately.

Wholesale Empty Paint Pails and Custom Printing

When working with metal paint container manufacturers, technical specifications, order volumes and brand design should be planned together. Kontensan has manufactured metal packaging since 1980. Its 25,000 square meters of indoor production space in Konya and Istanbul and metal offset printing facilities support custom printed paint packaging and metal pails in suitable configurations. Printing is not listed as a standard feature of K066. Prices for wholesale empty paint cans and pails depend on factors such as capacity, sheet thickness, coating and order quantity. Share your target volume, chemical product information and print design with Kontensan to request a technical assessment and manufacturing quotation.

Frequently Asked Questions - FAQ

Which sheet thicknesses are available for the 6-liter paint pail?

The PD family lists 0.24 mm and 0.25 mm options. Finished product thickness is confirmed before ordering.

Does the metal paint pail have a handle?

No. The PD family is specified with a handle-free body and an unprofiled pail lid.

What are the features of the 2-liter paint container?

K066 has a finished height of 85 mm, 0.24 mm sheet metal and an enamel exterior. It has no handle.
