Product Description

6 L Tea and Coffee Tin

The 6 L Tea and Coffee Tin is the largest-volume metal tin in the series, with a wide and shallow form. With a 300 × 200 mm base and 45 mm height, it suits fill volumes ranging from 2.7 to 6 liters. This product belongs to the Tea, Coffee, and Hot Flavor Tin Boxes series under Kontensan's Food Tin & Metal Packaging main category.

Where Is the Large Tea and Coffee Tin Used?

This large tea tin is ideal for bulk presentation, treats and gift hampers. Its wide surface suits biscuits, baklava, Turkish delight and nuts, as well as tea and coffee. Its shallow form makes stacking easy, while the large lid area offers strong printing and brand display.

Why Choose a Metal Tea and Coffee Tin?

Tea and coffee lose their aroma quickly when exposed to light, moisture and oxygen. A metal tea tin protects the content with its opaque body, while the slip-on lid reduces air contact and supports freshness. A metal coffee tin is a durable and safe solution for bulk storage.

Printing and Coating Options

A printed tea tin can be produced with internal and external coatings such as silver lacquer, gold lacquer, enamel and pigment lacquer. The wide outer surface allows a full custom brand design with metal offset printing.

Durability and Food Safety

The clinch-seam body and food-grade lacquer systems support durability and hygiene throughout the shelf life.

Kontensan Production Assurance

Kontensan supports production reliability with its quality, environmental and food safety management system certifications. With 46 years of manufacturing experience, it supplies metal tea and coffee tins from Türkiye to more than 30 countries. Wholesale orders and alternative moulds are also possible.

Frequently Asked Questions - FAQ

How much product fits in a 6 liter tin?

Capacity depends on the product's density. The 6 liter wide volume suits bulk presentation of tea, coffee, biscuits or confectionery.

Where is a large tea and coffee tin preferred?

It is preferred for treat presentations, gift hampers, bulk consumption and food service (HORECA). Its wide surface provides strong brand display.

Can wholesale printed tea tins be produced?

Yes. With metal offset printing and various lacquer options, wholesale, custom-printed tea and coffee tins can be produced.

What is the lid structure?

A slip-on lid is used; it can be reclosed after opening and helps protect the content by reducing air contact.
