Product Description

Spanish Turkish Delight and Chocolate Tray

The Spanish Turkish delight and chocolate tray is a metal food package designed for open presentation of Turkish delight, chocolate, dragees, and confectionery products. The TE technical sheet lists a 238 mm diameter, 358 mm length, 20 mm height, and 0.25 liter volume. The lid field is defined as “none (open top),” so this product is different from standard closed tins and works as a presentation tray. The technical sheet also lists no handle, hinge, seam / lock-seam, seam coating, form, or bead. Manufactured by Kontensan, this model supports Turkish delight tin box, Turkish delight box, Turkish delight present, Turkish delight gift box, chocolate tin, and premium confectionery display projects.

Key Features of the Spanish Turkish Delight and Chocolate Tray

238 × 358 mm Tray Shape and 20 mm Height

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Turkish Delight, Chocolate and Dragee Tin Boxes subcategory. The 238 × 358 mm footprint and 20 mm height support horizontal and visible presentation of Turkish delight, chocolate, and dragees. The tray format offers a different option for Turkish delight gift box, chocolate tin, Turkish candy box, and export packaging projects.

Open-Top and Seamless Construction

The TE model has no lid; the technical sheet defines the structure as “none (open top).” It also lists no handle / hinge, seam / lock-seam, seam coating, form, or bead. Available metal thickness options are 0.28 mm, 0.30 mm, and 0.32 mm. The open-top structure positions the product closer to a display tray than a conventional closed chocolate tin.

Offset Printing and Coating Options

The inner surface can use silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. The broad tray surface gives brands useful space for logos, product graphics, and special designs.

Frequently Asked Questions - FAQ

What are the dimensions of the Spanish Turkish delight and chocolate tray?

The TE technical sheet lists a 238 mm diameter, 358 mm length, and 20 mm height.

Does this model have a lid?

No. The technical sheet lists the lid as none (open top).

What is the volume of this product?

The main TE technical row states 0.25 L. The alternative K116 row includes 1.5 L in the product name and 2 L in the volume field.

Does this model have a seam or lock-seam?

No. The technical sheet lists no seam / lock-seam and no seam coating.
